Note: all answers on the questions sheet, be brief and to the point. Think hard on what you spend your limited words in.

1. Answer shortly to the following, speaker is mentioned first:

a. Manner: What was the revelation by Koomey et al., the so-called "Koomey's Law"?

b. Soininen: What were the originally envisioned benefits of IPv6 compared to IPv4, and what is the reality today?

2. What are the sources of regulation in the Internet? What are the 3 case studies in "Are We All Criminals?" in Chapter 1? Give one example when a source of regulation is successfully applied to a case study, and one example when a source of regulation might have a negative impact.
