

Rak-63.3238 Advanced Construction Project Management (P) (4 cr)

Examination 10.4.2014

This is not the original examination paper since the question paper had to be returned, but the questions were very accurately the following:

- 1. Describe the topology of ideal network. (Arto Huuskonen's presentation)**
- 2. BIM and interoperability in design process. (Teemu Ahonen's presentation)**
- 3. Describe the 3-limb open book compensation model. (commercial)**
- 4. Describe Partnering Solution Method. (Bronco & Bronco) Use a case example.**

YOU CAN ANSWER IN FINNISH, SWEDISH OR ENGLISH.
